

HEALTH & SAFETY POLICY

KCP Environmental Services is committed to achieving high performance throughout the business. Compliance with all health & safety legislation pertinent to our activities is a minimum requirement and an integral part of this policy.

We acknowledge our obligations to our people and to support this we will:

- ✓ Pursue continual improvements in health & safety performance
- ✓ Provide adequate control of the Health & Safety risks arising from our activities
- ✓ Consult with our employees on matters affecting their health & safety
- ✓ Systematically identify hazards and adequately assess and control risks to which employees and others may be exposed
- ✓ Ensure safe handling and use of substances in accordance with applicable regulations
- ✓ Promote the culture that Health & safety should never be compromised
- ✓ Provide and maintain safe equipment and plant
- ✓ Provide and maintain detailed information, instruction, supervision and training for employees
- ✓ Prevent accidents and incidences of work related ill health

The responsibility for health & safety awareness lies with all of us and this is integrated into our business activities. The Board will review this policy regularly and will revise as required.
